Lives Shelf

A modular shelving system with lively colors and unique accessories

The Lives shelving system provides a wide range of usability and configuration options, extending its functionality and versatility beyond just a display shelf or storage unit. The highly considered structural design of the Lives Shelf gives a sleek, minimalistic look and a number of optional elements can help elevate your environment.

Unit Variation

Module Variation

Fine tune the visual field with panels

Back panels can be attached shelf by shelf - meaning you can control the environments you create. For example, lower shelves can be fitted with panels to create cafe style spaces and attaching panels to higher shelves can help adjust the field of vision at standing height.

Minimal frame unit

The Lives Shelf is composed simply of slender frame, shelf and base parts. The lack of excess elements creates a clean, minimal design and allows the system to fit seamlessly into any environment. With a wide range of wood grain and powder coat color options you can easily match the Lives Shelf to your space.

Sofa options

Explore different layouts that include the sofa and locker options.

Versatility with lower-height units

39 3/8" (1000) H shelf units can be used as counter tops and 15 3/4" (400) H units can create casual bench areas. Because units are arranged one by one, configuration couldn't be simpler.
