okamura

Loving people, creating places

To increase the number of people who can live their lives in their own way, and to build a society full of smiles, Okamura will continue loving people and creating places where they can thrive.

Okamura was established in 1945 by a group of engineers. Mikasa, Japan's first automatic front wheel drive car, developed by Okamura in 1955. The spirit of craftsmanship contributes to an environment where working people can thrive.

**20 YEARS
OF
OKAMURA
WITH
ITALDESIGN**

Contessa 20th Anniversary

Leading furniture manufacturer, Okamura, joined forces with Turin-based design firm, ITALDESIGN in 2000, to create a world class office chair. Two years later, Contessa emerged, an instant classic. Contessa's form celebrates contrast. The sheer, transparent tension of stretched mesh across the seat and back provides an elegant counterpoint to the sleek, industrial weight of the aluminum frame. Iconic and enduring looks, with outstanding ergonomic functionality, have ensured this task chair quickly earned global acclaim. For the past 20 years, Contessa has remained a favorite in office seating.

Special Website

The Industrial Design Division of Italdesign, headquartered in Moncalieri, Torino – Italy, was established in 1981 and today is one of the most renowned and leading organizations in the industrial and transportation design fields on a worldwide level. Acclaimed for its proclivity in all-round functional design, Italdesign's projects range from automobiles to pieces of furniture, from tires to watches and home appliances.

OKAMURA MATERIALS

MESH WITH KAWASHIMA SELKON TEXTILES

Okamura's mesh by Kawashima Selkon Textiles, rooted in Nishijin-ori - a traditional type of weaving unique to Kyoto, Japan, has evolved in various ways design wise. Naturally, everything from material procurement, to mesh construction and chair assembly takes place in Japan. It's this 'Made in Japan' quality that makes our mesh seating so special.

FABRIC WITH KVADRAT

Okamura and Kvadrat were united by a shared quest to create the highest quality and beautiful designs. Together we will continue to make work environments more creative and pleasing, by elevating the seating to the level of an exquisite, yet hardworking piece of art.

Re:net

ONE FOR THE OCEANS

Marine debris harms the delicate balance of ocean life. Our sustainable textile Re:net holds a benefit greater than its exquisite and subtle beauty. By choosing the product, created from salvaged fishing nets, you will play a part in protecting our oceans and marine life.

INNOVATING FOR A BETTER WORKPLACE

From concept to completion, Okamura products are brimming with the creative spirit. Even the smallest details push the boundaries of conventional design, so we create something entirely new and wholly unique, again and again. All with the end goal to evolve the workplace, creating more productive, more creative, and happier environments.

SHIBUSA

Made in Japan

Simplicity, implicit, modesty, naturalness, everydayness, imperfection, and silence. In these traits, one discovers the Japanese aesthetic philosophy of Shibusu.

Suspended in the balance between simplicity and complexity, restraint and spontaneity, SHIBUSA by Okamura represents understated elegance and quiet confidence.

Contessa II *seconda*

Made in Japan

Since debuting on the world stage in 2002, the highly regarded Contessa has been reborn.

While the elegant lines of Contessa's original form have been maintained, the chair's functionality has been upgraded to meet the needs of our diverse global customers.

Sphere

Made in Japan

The casual light seating favored in shared settings is only intended for short duration sits. But behaviorally, on their office days, workers still tend to settle in for longer. Even if highly specified task chair is provided, very few workers take the time to make the beneficial micro adjustments, each time they settle in. Sphere has been designed to eliminate this compromise.

Finora

Made in Japan

Elevate your work in the uncompromised beauty of lightness. Finora was designed to encapsulate beauty with streamlined thinness and lightness. By applying the design philosophy that is distinctive to the automotive industry, Finora provides the modern worker with a high level of functionality for the ultimate level in comfort in an office chair without sacrificing the esthetic design.

OREE

Made in Thailand

OREE signifies a point that infuses simplicity and strength while drawing inspiration from Japanese origami.

With origins in Japan, origami art combines defined shapes and edges, to bring forth artistic structures. Fusing Okamura's skilled sheet metal technology with folds of thin sheet metal creates a beautiful and strong foundation.

Product Info.

Color

NAGARE

Made in Japan

Nagare, which means 'flow' in Japanese, is a new collection of lounge furniture that responds to the way we work today. Nagare consists of two distinct families – NAGARE Lounge and NAGARE Platform – each element possesses a sculptural quality that makes a bold aesthetic statement, while also being highly functional. This new collection has been carefully designed to help us work more effectively wherever work might happen.

Product Info.

Color

Phlox

Made in Japan

Nature is at the heart of this family of collaborative chairs and tables, that beckon colleagues to connect with comfort and ease. Beautiful, curved forms will soften the work space and invite a flow of creative energy. Spill into organic break-out settings, where easy and natural interactions will follow. Inspired by the fragrance and fascinating petals of the night phlox flower, the range captures both the vitality and calming influence of nature. Phlox Collection was designed with circularity in mind, ensuring a gentle footprint. Ideas flow, naturally.

Lives Pouf

Made in Japan

Lives Pouf is designed to encourage creative thinking and to support informal ways of working and collaboration in the shared areas of the workplace – such as cafes and touch down points, break-out spaces, co-working environments. Its softness and warmth allow you to create a place to repose within the information storm of our times.

Color

Product Info.

drape

Made in Thailand

drape is a minimal-sized pod with sound-absorbing capability. It takes up as little as four carpet tiles to build and transform open offices into a hub of concentration. The outer side of the two-toned panels are colored with brighter hues to uplift the office, while the inside panels are covered with a calming gray tone.

Color

Product Info.

Lives Shelf

Made in Thailand

A shelf with a wide range of usability and configuration, extending the versatility of a display shelf. By reconsidering the structure of the frame and shelf board, it has evolved into a minimalistic design. Not only can it partition the space, but it also can allow or block the visual field with a combination of panels.

Color

Product Info.

SPRINT

Made in Japan

Don't just choose a space that matches your working style - create it. In conventional offices, workers all use the same meeting rooms. But "workstyle reforms" and working from home policies have significantly transformed the way we work. As workers' values become more diverse, what should the office of the future look like? Okamura believes that workers creating ideas in person through teamwork will define the next era of office work.

Product Info.

Color

In offices where workers carry out diverse tasks, it is best if individuals can freely choose the environment optimally suited to their particular needs. Okamura offers proposals that create spaces accommodating of each individual's characteristics and circumstances to maximize their capabilities.

MATTEL OFFICES

Location : Warsaw, Poland

Industry : Entertainment

Completion Year : 2024

About the Project :

Project was run by BitCreative architects. The most challenging was to find conference chairs which will be corresponding in colors to the „Barbie” and „Fisher-Price” brands - the most representative for Mattel. The customer's expectations were to find comfortable chairs, which will be consistent with the branding colors but will not dominate in the conference rooms.
