Functions

Smart Operation Mechanism

Designed to fit your body, and your style. Features include Smart Operation with height adjustment and reclining lock at your fingertips, responsive seat slide and tension controls.

Ankle-Tilt Reclining

An ankle-tilt mechanism enables anyone to find their most comfortable reclining position. Using the ankle as a pivot point, this mechanism moves in sync with the seat, for greater support – stimulating variation in posture and relaxation, with uninterrupted comfort.

Multiple Density Cushion

Okamura's unique Multiple Density Cushion utilizes three types of urethane foam, of varying firmness layered together, to promote healthy sitting. The cushion provides softer support at the front of the seat, reducing pressure on the thighs for improved circulation; denser cushioning at the back firmly supports the hips for stability and improved posture.

Seat Height and Depth Adjustment

Adjust the chair height, within a range of 17 3/8" (441mm) to 21 3/4" (551mm), using the lever in the right armrest. Adjustment of the seat's depth, within a range of 2" (50mm), is available using the levers beneath the seat.

Reclining Tension Adjustment

Choose from four tension adjustment pre-sets for intuitive adjustment – all from a dial under the seat.

Sustainability

The Artistry of Executive Seating.

Legender is the ultimate executive chair. A combination of functionality, class and elegance, drawing upon our expertise in ergonomics and our long tradition of creating beautiful furniture.

Soft and supple leather and world class design, for the world's leading executives.

The fully upholstered leather executive chair is a timeless classic. Legender is a modern take on the concept – complete with detailing options including design stitching and gradient perforation.
