- If you need remodeling, contact our official dealers beforehand.

Safety Instructions (Make sure to follow these instructions)

Caution

Wheels

- The wheels are consumable parts. Wheel replacement is available for a fee. Contact our Customer Service.
- The soft wheels change over time due to the effects of hydrolysis, mold growth, ultraviolet rays, etc., causing deterioration such as crack and peeling. The speed of soft wheel aging greatly varies depending on your environment. If you find any deterioration, you are recommended to replace the wheels concerned as early as possible.

For P tile floor, wooden floor

- Hard caster(Nylon wheels) may slide too well to cause the chair to fall. Use Soft caster((urethane wheels). The nylon wheels are suited for floors covered with rugs or carpets.

Instructions to Extend the Life of Product

Please follow instructions below. Failure may cause serious damage to the product and Okamura will have no responsibility for any damages.

Operating Precautions and Maintenance

- If the product has become unsteady due to loosening of the bolts or screws during use, retighten them immediately.
- Avoid direct exposure to steam. Failure will cause rust.
- Wipe off any water on the Worktop with a dry and soft cloth.
- This instruction manual is very important, so store it in an easily accessible location.
- Regular maintenance is recommended for long-life use. Make your request to us early for inspections and repairs (fees required) when the warranty period has expired.

Maintenance

Cloth part

- Brush with a soft brush or tap the surface softly and vacuum to remove dust to avoid damaging the cloth.
- When it gets dirty after extended period of time, wipe with a well wrung soft cloth moistened with thin neutral detergent. Wipe clean with a damp cloth. Be sure to wipe detergent completely and wipe again with a dry cloth to dry it.
- When using alkaline electrolyzed water to remove stains, spray directly on the stain and brush with a soft brush taking care not to damage the cloth. Then, wipe the moisture and stain to remove and wait for the cloth to dry.
- When it gets an oily stain, dab and remove it by using a dedicated stain remover immediately. Then wipe with a soft cloth dampened with water, followed by a dry cloth to dry. Stains may be permanent depending on the material .

〈Caution〉

- Remove stains as quickly as possible.
- Avoid causing a circular stain, remove not only the stain but also wipe off thoroughly around the stain.
- Try the cleaner on inconspicuous area first since the surface may discolor or deteriorate by using it.

Resin part

- Wipe with a well wrung soft cloth moistened.
- If dirt is noticeable, wipe it off with a well wrung soft cloth moistened with thin neutral detergent. Be sure to remove detergent completely with a damp cloth and wipe again with a dry cloth to dry it.
