

Rin

okamura

Rin, the dignified beauty of being.

An ergonomic mesh chair named after the Japanese word *rin* which translates to 'a dignified state of being'. Designed based on Okamura's own research into ergonomics, Rin is a chair that provides a comfortable seating experience and helps maintain ideal posture.

Office

Home

Functions

The backrest and seat recline in sync with each other, taking the pressure off your thighs and increasing comfort.

The reclining tension can be adjusted to suit your body. The backrest has a reclining range of 22° and can be locked in a pre-set position.

Seat height is adjustable by 100mm.

Armrests are adjustable by 70mm.

The supple lumbar support reinforces healthy posture and supports your body's core.

The backrest is shaped to provide a simple hidden handle to help move the chair.
