

# OKAMURA ZL

# Design and Comfortability

Who said beautiful design and comfortable sitting experience cannot happen at the same time?

In Okamura philosophy, these two concepts do not contradict; they interconnect.

## Design Story Behind the Name

What contours OKAMURA ZL is inspired by smooth, curving lines of nature.

Most visible is its back design.

Some see a fin, while others see flower stem in it.

Yet, the chair blends into urban working environment effortlessly.

And as the name goes, OKAMURA ZL is all about wind-clad flowing design.

## OKAMURA ZL: It's All about Back!

The aluminum bracket has sophisticated shine, and is covered with ABS glossy dressing board.

Without being overly flashy, this creates a subtle, yet eloquent feel to your space.

Not just being easy on the eye, the bracket holds BIFMA-approved strength.

# OKAMURA ZL Follows Okamura Philosophy, Bringing You a Total Ergonomic Satisfaction

OKAMURA ZL is a design product for a good balance of ergonomic comfort and the design. If you want to make both factors happen at the same time, the answer is here, easily within your reach.

## Adjustability

### Seat Height Adjustment

Seat height can be adjusted in 85mm range with a right lever underneath the seat.

### Seat Slide Adjustment

Seat depth can be adjusted in the range of 50mm back and forth with a left lever underneath the seat.

### Reclining Adjustment

Reclining angle can be smoothly adjusted in five positions with a left lever underneath the seat.

### Armrest Height Adjustment

Armrest height can be adjusted in 90mm range with levers underneath the arm pads.

### Arm Pad Angle Adjustment

The arm pads can be adjusted inward and outward as shown in the picture. They gently support the entire forearms when using the computer and performing other tasks.

### Arm Pad Forward and Backward Adjustment

The arm pads can slide forward and backward in the range of 60mm. This helps support the arms and building less fatigue.

### Lumbar Support

You can reduce unnecessary fatigue and stress on your back with lumbar support. Lumbar support can be adjusted in 50mm range up and down.

### Headrest Adjustment

The headrest can be adjusted up and down and to various angles for the best comfort required.
