Spec Guide

Issued April 2018

okamura

Example set plan

- 1 Example set A For work that requires privacy and concentration
- 5 Example set B Encouraging spontaneous collaboration
- 7 Example set C New ways to collaborate while staying focused

Specifying

- 9 Individual booth unit **New**
- 17 Box meeting unit **New**
- 18 Sofa unit **New**
- 19 Meeting booth
- 20 High counter
- 20 Free-standing panel
- 22 Panel
- 23 Panel connection set
- 24 Segment panel
- 25 Multi-use shelves
- 27 Table and Sofa

Power solution

- 29 Power source diagrams / overview
- 30 Typical configuration
- 33 Specifying

Surface materials

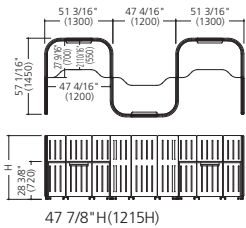

- 39 Color

For work that requires privacy and concentration

Soft, round walls create a comfortable and private work station

A01

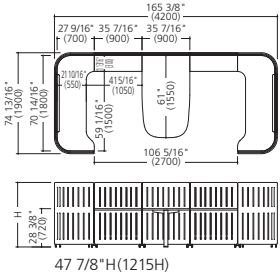

Product name	Product number	Pieces
Booth set MM	MM71MM-MAJ9	3

Notice Including window panels 1) Angled sides cannot be formed using only window panels. For straight spans, bend the panels to the extent possible with up to a maximum of three spans. 2) The short side of angled compositions should be more than one-third the length of the straight side. 3) A window panel cannot be used for the end section. (Please use a plain panel for the end section of the layout.)

Panel connection set

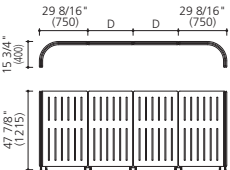

In-line change of height connection set
MM80DN-ZC11 / Z25
Use between
47 7/8" H (1215H)-57 1/2" H (1460H),
57 1/2" H (1460H)-66 15/16" H (1700H)
Common specs: steel, top & bottom set

Use 47 7/8" H (1215H),
57 1/2" H (1460H),
66 15/16" H (1700H)

Panel /sofa connectors

For the start / end point
MM80SC-ZC11 / Z25

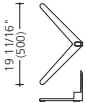

For the connection point
MM80SD-ZC11 / Z25

Free-standing legs

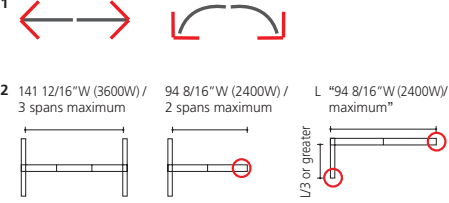

Optional
MM80VA-Z637 / Z25
1 pair (left & right) for use with
47 7/8" H (1215H),
57 1/2" H (1460H),
66 15/16" H (1700H)
Z637 (silver metallic), Z25(black)
*Maximum durability: up to 2 straight panels

Notice 1. When the plain panel is to be used as a freestanding partition 1) Use freestanding legs on both the right and left ends. 2) You can use freestanding legs on no more than two panels (straight panel, R panel).

2. When the plain panel by itself is going to be used as a freestanding low partition
1) For an H-shaped model: Provide a bend within a range of three spans (141 12/16" W(3600W)) maximum.
2) For a straight-line connection of reverse C-shaped and L-shaped models ending with a straight panel: Provide a bend within a range of 94 8/16" W(2400W) maximum from the corner post. The shorter side of the bent part must be at least one-third the straight length. We recommend that you provide for seismic protection by using brackets (or freestanding legs) that fix the product to the floor and/or wall adjustment materials.
3) When assembling the product with reverse C-shaped and L-shaped models with the J panel (or L panel) placed in the middle: Provide a bend within a range of three spans maximum (including the J or L panel). The shorter side of the bent part must be at least one-third the straight length. We recommend that you provide for seismic protection by using brackets (or freestanding legs) that fix the product to the floor and/or wall adjustment materials.

3. For layouts in which the plain panel are used together with sofas and/or shelves Order the necessary number of special fittings that you need to connect sofas and tables with one another.

Overview

Electrical

Muffle wiring base features capabilities for cable management, including electrical module system. The 4-wire electrical module system can be integrated at wiring base pathway. Worksurface power accessories can be attached to muffle system for daily access.

- Utilizing 4-wire, 2-circuit electrical module system as power source when panel connection with power required.
- Each worksurface power accessory will be plugged in to receptacle block of electrical module system.
- All receptacle blocks should be specified from circuit 1 or circuit 2.
- 20-amp hardwire power infeed standard. A licensed electrician is required to complete hardwire connections to building’s power source. Plug-in power infeed option available.
- 4-wire, 2-circuit electrical system supplied for standard hardwire infeed. Single circuit electrical system supplied for optional plug-in power infeed.
- Hardwire power infeed is having 36”/72”/120”(914/1829/3048) length from the first receptacle block as standard. Other length hardwire power infeed is available as an option.
- Hardwire power infeed is a flexible metal conduit as standard. Liquid-tight conduit is available as an option.
- A ll wires are 12 gauge.
- Worksurface power accessories and power source cables are UL listed for upholding strict safety standard.

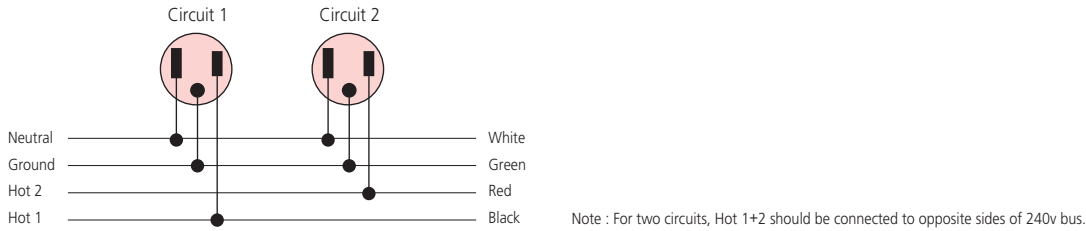

Chicago Electrical Requirements

The city of Chicago may require hardwiring of electrical components. For Chicago applications, Okamura provides worksurface power accessories with hardwired power cord. Electrical components such as junction boxes and power infeed and jumpers must be purchased in the field.

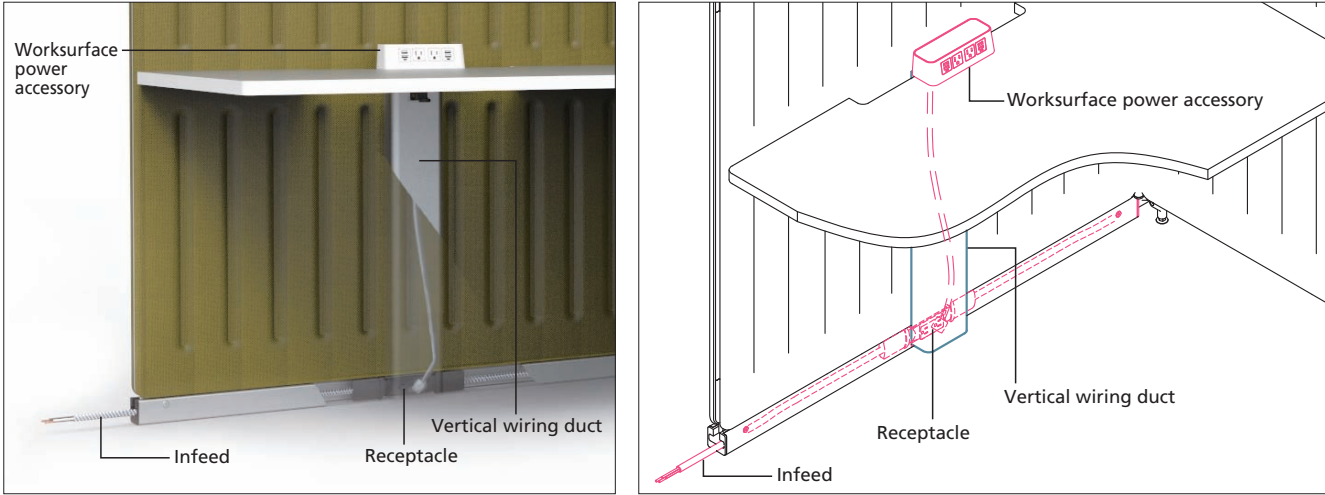

Other Municipality Electrical Requirements

Other metropolitan areas besides Chicago may have special electrical requirements as well. Consult a local electrical contractor for proper code compliance information.

Electrical Diagram for Hardwire Power Infeed

Specifying

Specifying Electrical Components

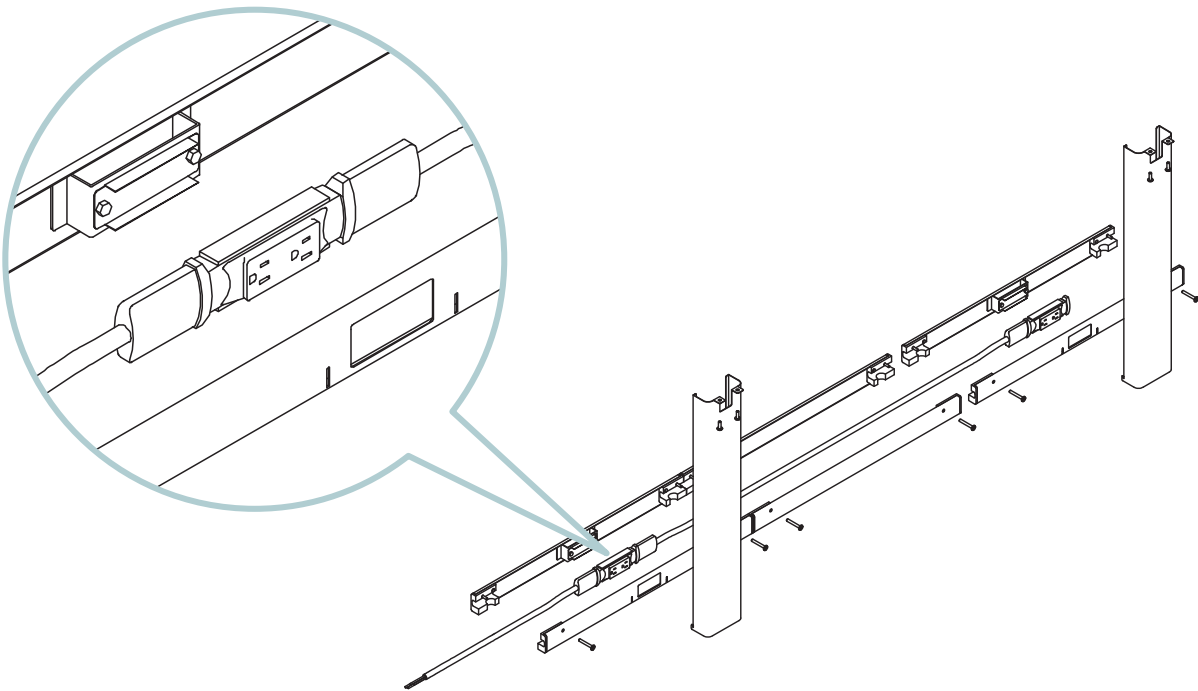

- Step 1 Specify furniture layout.
- Step 2 Specify receptacle and in-feed location, quantity, and circuit of each receptacle kit.
- Step 3 Calculate nominal jumper length, Infeed length, according to the jumper length calculation equation. And specify the item code of needed jumper from the chart.
- Step 4 Specify infeed.
- Step 5 Specify wiring base with or without receptacle opening per each panel.
- Step 6 Specify worksurface power accessory.
- Step 7 Specify cable clip when needed.

*Wiring base cannot be attached on a panel which will be connected to a sofa. But wiring components can be attached underneath the sofa with wiring clip.
*Receptacle openings on curved base are not available. Openings on J/L base are available as custom.

- Special order
- 1) with receptacle opening (J/L)
 - 2) without receptacle opening (R)
 - 3) with parallel receptacle opening (27 9/16" W (700W) – 47 4/16" W (1200W))
 - 4) with data window

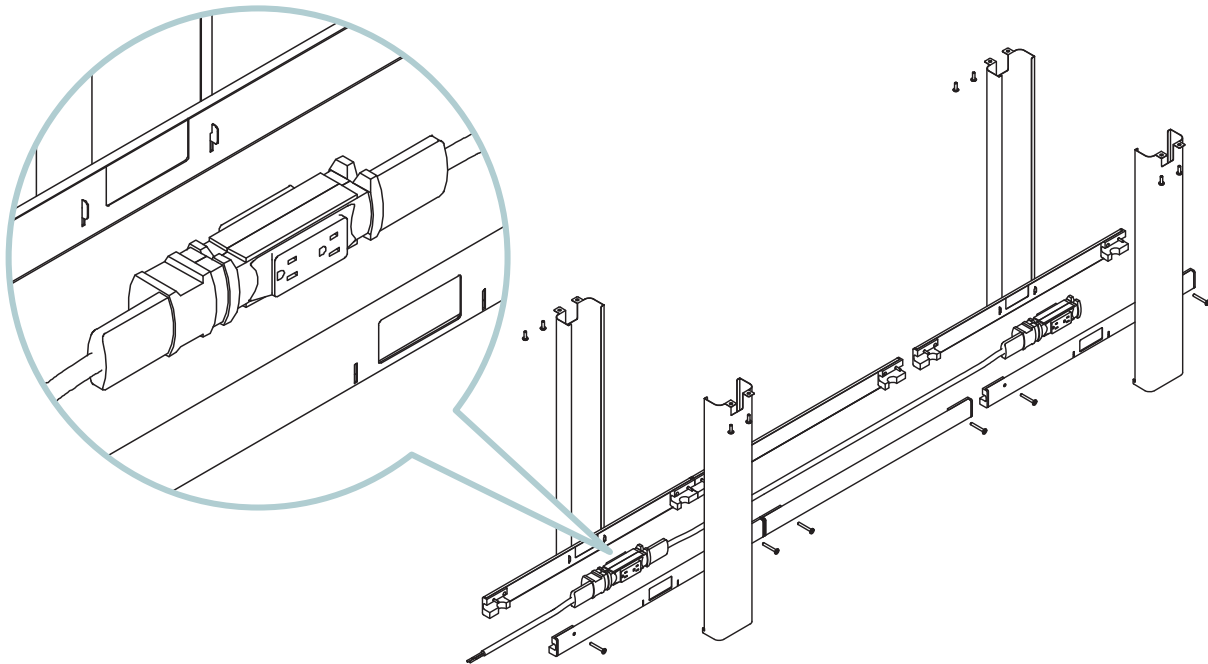

Single For the basic
Single infeed × Single side receptacle

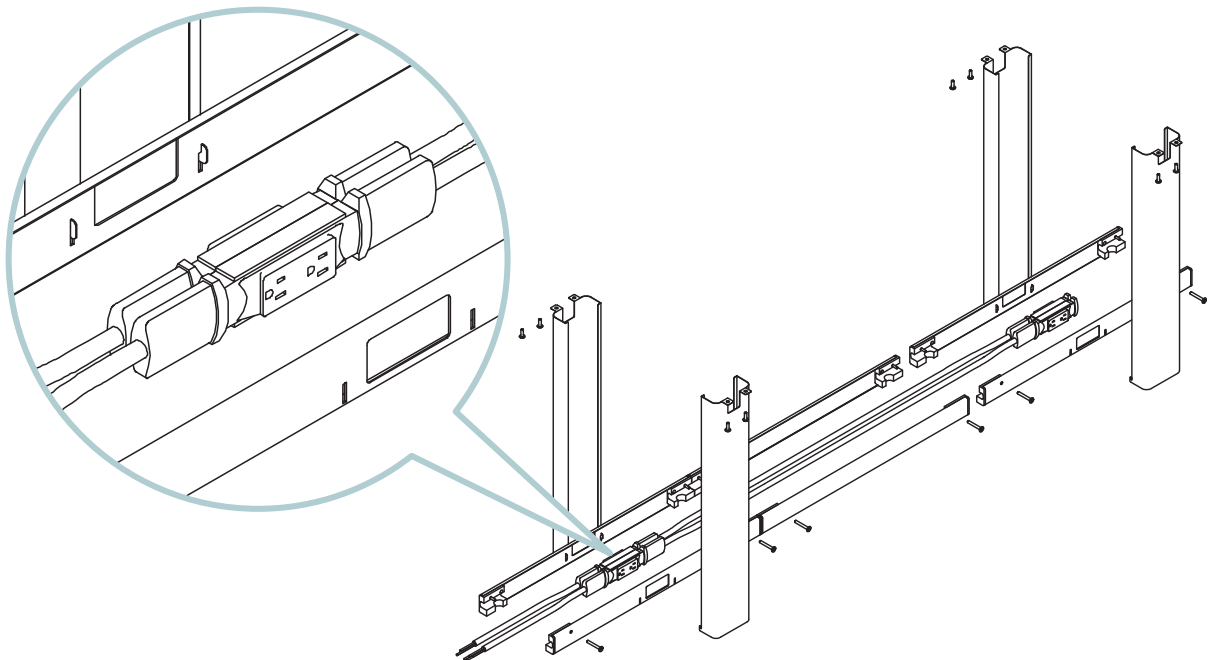

Specifying

Double For the efficient
Single infeed × Double side receptacle

Twin For the large capacity
Double infeed × Single side receptacle

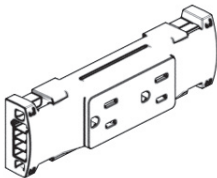

Specifying

Step 4 Specify infeed.

Infeed	
36"L (910W)	4LHP1B -Y647
72"L (1810W)	4LHP1A -Y647
120"L (3048W)	4LHP1C -Y647

Step 5 Specify wiring base with or without receptacle opening per each panel.

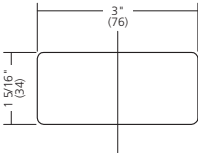

Base (with receptacle opening)

	1/2W	Single side	Double side
19 11/16"W (500W)		MMCS05 -Z637/Z25	MMCD05 -Z637/Z25
23 10/16"W (600W)		MMCS06 -Z637/Z25	MMCD06 -Z637/Z25
27 9/16"W (700W)		MMCS07 -Z637/Z25	MMCD07 -Z637/Z25
31 8/16"W (800W)		MMCS08 -Z637/Z25	MMCD08 -Z637/Z25
35 7/16"W (900W)		MMCS09 -Z637/Z25	MMCD09 -Z637/Z25
39 6/16"W (1000W)		MMCS10 -Z637/Z25	MMCD10 -Z637/Z25
43 5/16"W (1100W)		MMCS11 -Z637/Z25	MMCD11 -Z637/Z25
47 4/16"W (1200W)		MMCS12 -Z637/Z25	MMCD12 -Z637/Z25

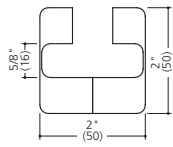

Base (without receptacle opening)

19 11/16"W (500W)		MMCP05 -Z637/Z25
23 10/16"W (600W)		MMCP06 -Z637/Z25
27 9/16"W (700W)		MMCP07 -Z637/Z25
31 8/16"W (800W)		MMCP08 -Z637/Z25
35 7/16"W (900W)		MMCP09 -Z637/Z25
39 6/16"W (1000W)		MMCP10 -Z637/Z25
43 5/16"W (1100W)		MMCP11 -Z637/Z25
47 4/16"W (1200W)		MMCP12 -Z637/Z25
J		MMCP1J -Z637/Z25
		for use with tabletop MMCP2J -Z637/Z25
L		MMCP1L -Z637/Z25
		for use with tabletop MMCP2L -Z637/Z25

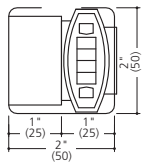

Opening dimensions

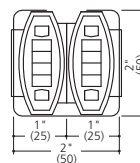

Typical configuration End

Typical configuration Single receptacle

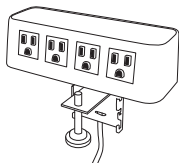

Typical configuration Double receptacle

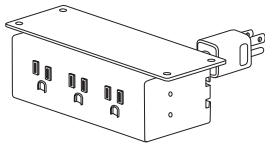

Specifying

Step 6 Specify worksurface power accessory.

[Edge mount]

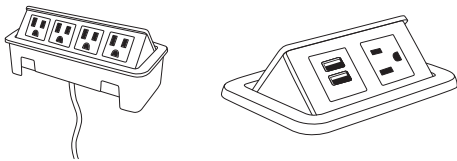

[Under-mount]

[In-surface] *optional

Custom cutout tabletop for in-surface power accessories is available as an option.

Product	# of port	Code	Configuration		Color
Edge mount	4	MMD4AA		Edge mount 2 power 1 USB 1 Open data w/90 degree 72" cord	White -Y707 Black -Y708
		MMD4AB		Edge mount 3 power 1 USB w/90 degree 72" cord	White -Y707 Black -Y708
	2	MMD2AA		Edge mount 1 power 1 USB w/72" 90 degree plug	White -Y707 Black -Y708
		MMD2AB		Edge mount 2 power w/90 degree 72" cord	White -Y707 Black -Y708
Under-mount	3	MMD3BA		Under surface side mount Cord exit Z 2 power 1 USB w/72" 90 degree plug	White -Y707 Black -Y708
		MMD3BB		Under surface side mount Cord exit Z 3 power w/72" 90 degree plug	White -Y707 Black -Y708
Vertical wiring duct		MMCA1A		28 3/8"H (720H)	-Z637/Z25
		MMCA1B		28 3/8"H (720H) for use with wiring base	-Z637/Z25
		MMCA2A		39 6/16"H (1000H)	-Z637/Z25
		MMCA2B		39 6/16"H (1000H) for use with wiring base	-Z637/Z25

Notice Item you need to order. Please be sure to order a duct to the number of power source.

Step 7 Specify cable clip when needed.

Metal cable clip (10-pack)

MMCB1A

Plastic cable clip with double-side tape (5-pack)

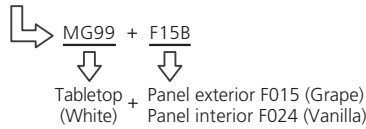

MMCB1B
