Comfort Back Shell The shell's flexible slit structure provides firm support to the lower back while allowing comfortable flex for lateral movements and leaning back. **Comfort Cushion** The flexibility of the fabric and

Comfort

The perforated seat cover and spacer fabric allows for greater breathability.

The flip back design reduces For padded comfort, specify pressure points on the backrest. the optional backrest pad.

Compact (Nesting Chair)

achieved by nesting

pitch of 125mm (5 inch).

Safety (Nesting Chair)

Nesting pitch is 150mm Even with armrest, 3 chairs can be used (as shown) with the standard size 1,800mm (70 7/8 inch) folding table.

Safety (High Chair)

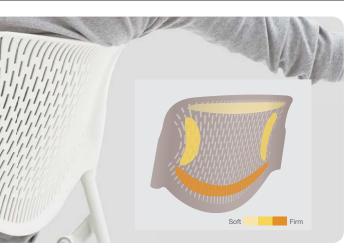

The seat flips down slowly, avoiding unwanted noise and the risk of trapping fingers.

Framework support is The foot ring of the high set back beneath the seat to reduce risk of trapping fingers.

chair allows for greater stability while sitting and when getting on and off.

Mobility

You can choose from hard casters or soft casters, with or without brakes for durable mobility.

The high tensile steel frame is robust and light.

Recycled materials are used insteel and resin parts. These materials make up about 27% of the product weight.

Recyclability \cap

With easy disassembly and recycling always in mind, Okamura products are designed so materials can be thoroughly separated into discrete material groups.
